6.0 RECORDS, REPORTS AND FORMS:

6.1 With the exception of “turn-ins,” the AVI will post all UGR-E surveillance inspection reports (both with and without deficiencies) in the VETCOM UGR-H&S/UGR-B/UGR-E Inspection database.

6.2 The procedure for using the VETCOM UGR-H&S/UGR-B/UGR-E Inspection database is discussed on VETCOM OPRATS IP20 - UGR-H&S/UGR-B/UGR-E Inspection database.

6.3 The AVI will prepare and complete a DSCP Form 5117 for UGR-E turn-in inspections. The AVI can use the UGR-H&S/UGR-B/UGR-E inspection database to generate a database version of this form. Print the report but do not save the report in the database. If the turn-in report is accidentally saved in the database, email the Chief, Operational Rations Section, VETCOM HQ, with a link to the report for deletion.

6.4 A CVR will be completed for each ration inspection to establish a record in the ISP application and capture the manpower required.
